Work Experience

(June 2021 – August 2023): HCLTech

- **Role:** Developer
 - Java (2+ years of experience)
 - Spring Framework (1 year of experience)
 - IBM DataStage ETL Tool (1 year of experience)
 - Snowflake (1 year of experience)
 - SQL (2+ years of experience)

Projects

- **(2023):** Part of a development team with Fidelity to create APIs and Stored Procedures for the purpose of migrating a legacy application to Angular.
- **(2022):** Worked alongside a team for an Anti-Money Laundering project for USAA. Revolved around monitoring Snowflake database tables in the ETL process.
- **(2020):** Developed a web application that provides a page for students to select/register for a single course from a list of courses. The website can remember the selected course via a cookie. The application uses a database to retrieve the data about the available courses.

Relevant Coursework

Computer Information Systems:

- Visual Programming I & II
- Computer Database Systems
- Agile Project Management
- Enterprise System Development and Application Security
- Mobile Application Development for Android
- System Analysis and Design

Computer Science:

- Foundations of CS I & II
- Data Structures
- Object-Oriented Design and Programming

Honors

(2018-2021): McCoy College of Business Dean's List
